

A History of the USS Calvert - Research notes for the period January 1, 1962 to December 31, 1962					
Year	Month	Day	Location / Movement	Historical Details	Sources, Notes

Introduction

This document represents chronologically ordered historical research notes for the period January 1, 1962 to December 31, 1962. Highlights for this period include:

- * San Diego, for upkeep and amphibious training exercises - January 1 to March 19
- * Operation Pot Shot, Camp Pendleton - March 20 to 22
- * San Diego, for upkeep and exercises - March 23 to June 10

Far East Cruise

- * Departure from the U.S. Naval Station, San Diego, for a Far East Cruise - June 11
- * Hawaii for exercises - June 20 to June 26
- * Underway for Yokosuka, Japan - June 27 to July 9
 - Struck by friendly torpedo - At sea off Hawaiian Islands - June 27
- * Yokosuka, Japan - July 10 to July 19
- * Underway for Sasebo, Japan - July 20 to July 21
- * Sasebo, Japan - July 22 to July 29
- * Underway for Inchon, South Korea, evading Typhoon Nora - July 30 to August 4
- * Inchon, South Korea - August 5 to 7
- * Underway for Pohang, South Korea - August 8 to August 9
- * Pohang, South Korea - August 10 to August 11
- * Underway for Inchon, South Korea - August 12 to August 13
- * Inchon, South Korea - August 14 to August 15
- * Underway for Subic Bay, Philippines and the rerouted to Sasebo, Japan to evade Typhoon Sarah - August 16 to August 17
- * Sasebo, Japan - August 18 to August 22
- * Underway for Manila Bay, Philippines - August 23 to August 27
- * Manilla Bay and Subic Bay, Philippines - August 28
- * Underway for Hong Kong, Dependents Cruise - August 29 to August 30
- * Hong Kong, Typhoon Wanda - August 31 to September 5
- * Underway for Manila Bay, Philippines - September 6 to September 7
- * Manila Bay and Subic Bay, Philippines - September 7 to September 9
- * Underway for Yokosuka, Japan, with a quick anchorage at Buckner Bay, Okinawa - September 9 to September 15
- * Yokosuka, Japan - September 16 to September 21
- * Underway for Pohang, Korea - September 22 to September 23
- * Pohang, Korea - September 24 to September 28
- * Underway for Beppu, Japan - September 29
- * Beppu, Japan - September 30 to October 2
 - * USS Calvert's 20th Birthday - October 1
- * Underway to Kobe, Japan - October 3
- * Kobe, Japan - October 4 to October 7
- * Underway for Okinawa, Japan - October 8 to October 10
- * Okinawa, Japan - October 11 to 12
- * Operation Lone Eagle, Okinawa Operating: Buckner Bay, Chin Wan, etc. - October 13 to October 23
- * Buckner Bay, Okinawa, Japan - October 24 to October 30
- * Underway for Naha, Okinawa, Japan - October 31

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
* Buckner Bay, Okinawa, Japan - October 24 to October 30					
* Underway for Naha, Okinawa, Japan - October 31 to November 1					
* Naha, Okinawa, Japan - November 2					
* Underway to Yokosuka, Japan - November 3 to November 6					
* Yokosuka, Japan - November 7 to November 10					
* Underway for Iwakuni, Japan - November 11 to November 12					
* Iwakuni, Japan - November 13 to November 14					
* Underway for Okinawa, Japan - November 15 to November 16					
* Buckner Bay, Okinawa, Japan - November 17 to November 18					
* Rescue of the S.S. Julesberg, Okinawa, Japan - November 18					
* Underway for Pearl Harbor - November 19 to November 23					
* Pearl Harbor - November 24 to December 2					
* Underway to San Diego - December 3 to December 10					
* Return to U.S. Naval Station, San Diego - December 10					
* San Diego for upkeep, remainder of December

Notes:

Times: All times are in "24-hour" time. For example, 0000 is midnight, 0400 is 4am, ... 1200 is noon, 2000 is 8pm ..., and so on.

Condition One-Alfa refers to active amphibious activities by the crew of the Calvert and the employment of the ship's landing craft in these exercises. This condition is represented by a variety of uses of "one alpha" including: One-Alfa, One-Alpha, 1-Alfa, 1-Alpha, and similar. For the most part this document reflects these variations as written in the Calvert's official deck log book.

Accuracy: When possible the details are corroborated, and in some cases corrected, by official Naval records. However, not all personal recollections captured in this document are corroborated by official Naval records.

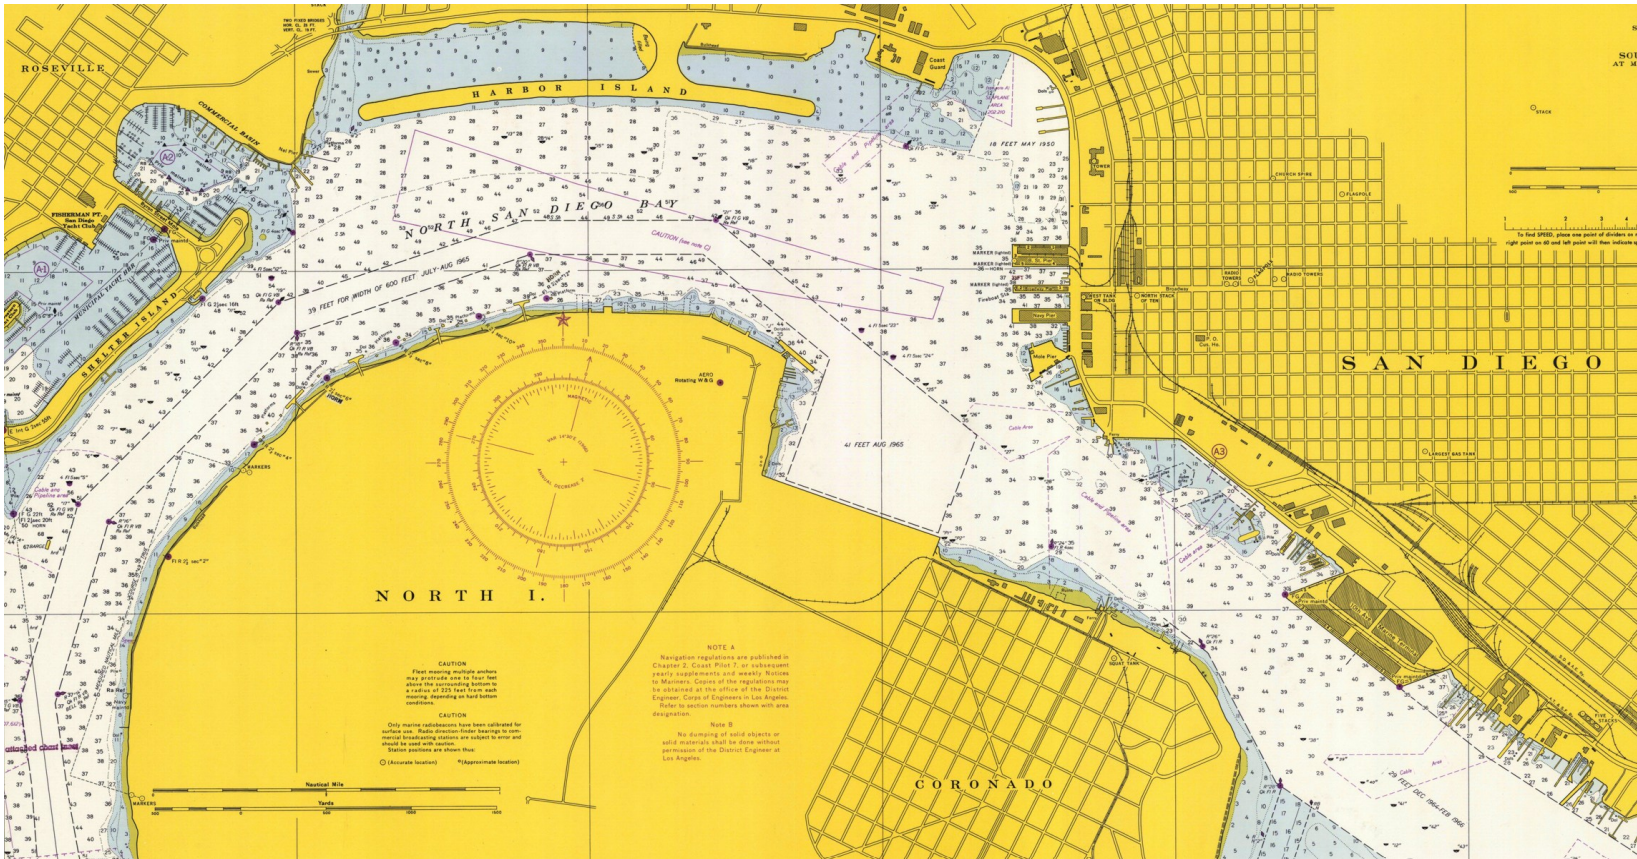

Jacking the Engine: Refers to using a special mechanism called a "jacking gear" to slowly rotate the turbine blades of a steam engine when the ship is not underway, preventing damage from thermal stress and ensuring smooth operation when restarting the engine after a period of inactivity; essentially, it keeps the engine components from warping due to uneven cooling when shutting down completely.

1962	January	1	Moored, San Diego Bay	0000 The men of the mid-watch are all blessed with insomnia on the USS CALVERT moored at San Diego, California. 15 fathoms of starboard anchor chain is out forward to buoy forty-three has us firmly secured. Fifty feet of 1 1/4 inch wire has been run out aft to buoy 44 in stabilizing our craft. The wire is doubled to suppress any chance of our spirited vessel's impulse to prance out here in San Diego's quiet stream. Generators are running as in a dream. All auxiliary power is provided free, both AC and DC by generator number three. In any event of a call for steam, number two boiler completes the team. About us are U.S. Pacific Fleet ships and units serene, with district and yard craft completing the scene. COMNAVAIRPAC at NAS North Island rules as SOPA with a manner grand. Signed R. Riedel, ENS USN	Deck Log, USS Calvert, January 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	January	2	Moored, San Diego Bay	0000 Moored as before, fore and aft to buoys 43 and 44, San Diego Bay. 1015 Captain J. N. Renfro departed ship on one day annual leave.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	3	Moored, San Diego Bay	Moored as before. No notable events for this date.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	4	Moored, San Diego Bay	0000 Moored as before. 0745 Captain J. N. Renfro returned from one day's leave. 0830 Jacked over main engines with electrical jacking gear.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	5	Moored, San Diego Bay	0000 Moored as before. 1110 - 1130 Garbage barge made up to port quarter. 1147 - 1230 Loaded ammunition.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	6 - 8	Moored, San Diego Bay	Moored as before. No notable events for these dates.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	9	Moored, San Diego Bay	0000 Moored as before. 0850 Exercised at General Quarters. 0854 Set Condition 1-Alfa, commenced holding amphibious drills. 1015 Secured from Condition 1-Alfa. 1300 Remanned 1-Alfa stations. 1545 Secured from Condition 1-Alfa. 1825 Visibility decreased to "zero" due to heavy fog, commenced sounding fog signals.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	10 - 18	Moored, San Diego Bay	Moored as before. No notable events for these dates.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	19	Moored, San Diego Bay	0000 Moored as before. 0815 Exercised the crew at General Quarters. 0823 Condition ZEBRA set. 0920 Set Condition 1-ALFA - commenced amphibious exercises. 1040 Secured from Condition 1-ALFA.	Deck Log, USS Calvert, January 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	January	20	Moored, San Diego Bay	0000 Moored as before.	
				Gale conditions 1300 Observed USS Neches (AO 47) part after cable to buoy. Prepared to render assistance. 1310 Set the Special Sea and Anchor Detail in preparation for getting underway due to heavy weather and the danger presented by USS Neches being out of control. 1323 No. 1 boiler lit off. Lit off steering engines. 1341 LCM-3 dispatched to assist USS Neches. 1410 Visibility reduced to 1/2 mile in rain and fog, turned on anchor and aircraft warning lights. Wind velocity 32 knots. 1415 Dispatched LCM-4 to assist USS Neches. 1425 Visibility increased to 1 1/2 miles. Secured the Anchor and Aircraft Warning lights. 1447 LCM's No. 2, 3 and 4 returned to ship. 1531 Put steering engines on standby status. 1605 Set Gale Condition I with a modified steaming watch set. Small boat runs have been terminated. 1840 Secured the Special Sea Detail as winds and seas have abated. Let fires die under No. 1 boiler. 2145 Returned to normal status.	Deck Log, USS Calvert, January 1962. Selected entries Note: Wind speeds were constant at 10 knots from 0800 to 1000, then progressively increased 34 knots by 1700, and then reduced to 3 knots by 2000. Note: The USS Neches (AO-47) was a Kennebec-class oiler in the United States Navy during World War II and the Vietnam War. She was the second U.S. Navy ship named for the Neches River in eastern Texas.
1962	January	21	Moored, San Diego Bay	Moored as before. No notable events for this date.	Deck Log, USS Calvert, January 1962. Selected entries
1962	January	22	Moored, San Diego Bay	0000 Moored as before.	
			Underway, vicinity of San Diego Anchored, Coronado Roads	0830 Set the Special Sea and Anchor Detail. Making preparations for getting underway. 0938 Underway, maneuvering to clear berth. Captain and Navigator are on the bridge. 1034 Ballast Point abeam to starboard, range 200 yards. Running Degaussing Range. 1046 Commenced using international Rules of the Road. 1056 Buoy 1 SD abeam to starboard (close aboard). Maneuvering to get in position to swing ship. 1126 Set speed to 10 knots. Commenced swinging ship. Steering various courses and speeds proceeding to anchorage. Amphibious Landing Exercise 1400 a/e/stop, anchored off right flank of Beach Lane Blue 2, Coronado Roads. 1411 Secured the Special Sea and Anchor detail. 1412 Set General Quarters. 1420 Set Condition 1-ALFA. 1450 Away all boats. Conducting Amphibious Operations. 1619 Commenced hoisting boats. 1732 Completed hoisting boats. 1746 Secured from 1-ALFA, set Condition VI (modified). 2124 Forward anchor light shorted out. 2130 Wind has increased to about 20 knots. 2132 Restored forward anchor light.	Deck Log, USS Calvert, January 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	January	23	Anchored, Coronado Roads	0000 Anchored on the right flank of the L.O.D beach lane Blue Two, Coronado Roads. The ship is in Readiness Condition Four (modified) with Material Condition YOKE set. Engineering plant is on 30 minute notice for 2 boiler steaming. 0730 Set Special Sea and Anchor Detail. Commenced heaving in anchor to short stay. 0804 Underway from right flank beach lane Blue Two to conduct general drills. 0810 Set speed 10 knots from anchorage. 0820 Set speed to 15 knots. 0836 Exercised crew at General Quarters. 0847 Set Material Condition ZEBRA. Condition of Readiness One is set. 0848 Conducting general drills enroute to and in COMWESEADRON OPAREA SS-1. 0928 Changed speed to 10 knots. 0929 Commenced engineering casualty drills. Modifying ship's speed accordingly, other drills continue. 1023 Secured from General Quarters. Set Condition of Readiness Four. 1033 Exercised the crew at Man Overboard drill. 1047 Secured from Man Overboard drill. 1108 Changed speed to 14 knots. 1143 Changed speed to 13 knots. 1212 Stationed Special Sea Detail and Anchor Detail. Commenced approach to anchorage.	Deck Log, USS Calvert, January 1962. Selected entries
			Underway, vicinity of San Diego	1237 Anchored off the right flank of Beach Lane BLUE-2, Coronado Roads. 1246 Exercised the crew at General Quarters. 1252 Set Condition 1-ALFA. Commenced Amphibious exercises, putting all boats in water. 1745 Set modified steaming watch. 1830 Darken ship. 1900 Reman all boats. 1930 All boats clear of the ship. Commenced ship to shore movement. 2055 Light ship, completed ship to shore movement, commenced hoisting all boats aboard. 2205 OOD shifted the watch from the Open Bridge to Pilot House. 2216 Secured from 1-ALFA. All boats hoisted aboard and gripped. Set Condition IV (modified).

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	January	25	Anchored, Coronado Roads	0000 Anchored as before. 0702 Set the Special Sea and Anchor Detail. 0715 Heaving in anchor to short stay.	Deck Log, USS Calvert, January 1962. Selected entries
			Underway, vicinity of San Diego	0726 Underway from Anchorage 170 to conduct general drills. 0735 Secured the Special Sea and Anchor Detail. 0930 Exercised the crew at General Quarters, condition Zebra set throughout the ship. 0945 Steering various courses and speeds while conducting battle problem. 1045 a/e/a 1/3; Casualty in engine room; loss of vacuum. 1052 Changed speed to 10 knots. Casualty restored. 1118 Secured from Battle Problem drills. 1119 Set condition YOKE, secured from General Quarters.	
1962	January	25	Underway, vicinity of San Diego	1201 Commenced zigzagging, speed 8 knots. 1257 Ceased zigzagging. Changed speed to 10 knots. 1312 Commenced maneuvering on various courses and speeds as necessary to conduct rubber docking drills. 1408 Exercised the crew at Man Overboard drill, steering various courses and speeds necessary to conduct drill.	Deck Log, USS Calvert, January 1962. Selected entries
			Moored, San Diego Harbor	1512 Set the Special Sea and Anchor Detail. Changed speed to 10 knots. Maneuvering at various courses and speeds as necessary to enter San Diego Harbor. 1650 Changed speed to zero. Moored fore and aft to buoys 45 and 46, San Diego Harbor. 1712 Secured main and steering engines. 1717 OOD shifted his watch from Open Bridge to the forward quarterdeck.	
1962	January	26	Moored, San Diego Harbor	0000 Moored fore and aft to buoys 45 and 46, San Diego Harbor.	Deck Log, USS Calvert, January 1962. Selected entries
				0730 In accordance with Security Drills being held on ships in the harbor Calvert was successfully penetrated and bombed by an intruder from USS Skagit. 1632 Held drill, in port recue and assistance party section III. 1655 Secured from rescue and assistance drill.	
1962	January	27 - 30	Moored, San Diego Harbor	Moored as before, fore and aft to buoys 45 and 46, San Diego Harbor.	Deck Log, USS Calvert, January 1962. Selected entries
				January 30th: 1822 Held collision drill. 1923 Secured from collision drill.	

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	January	31	Moored, San Diego Harbor	0000 Moored as before, fore and aft to buoys 45 and 46, San Diego Harbor. 0645 COMPHIBRON FIVE arrived for Navy Award Inspection. 0908 COMPHIBRON FIVE left the ship. 1258 Twenty observers from USS Montrose came aboard to observe battle problem. 1330 Exercised crew at General Quarters. Captain, Navigator, Executive Officer on the bridge. Navigator has the Deck. Conducting Battle Problem. Simulating various course, speeds, casualties, attacks, and so forth. Set Material Condition ZEBRA. 1507 Set Material Condition YOKE. Secured from General Quarters. Set Condition of Readiness FIVE. 1530 Energized the master gyro. 1610 Montrose observers departed the ship.	Deck Log, USS Calvert, January 1962. Selected entries
1962	February			"February brought with it a busy and successful three week of underway training with ComPhibTraPac (Amphibious Training Command) and ComPhipOptuPac (?) and a fourth week of squadron exercises."	Cullen, Page 28
1962	February	1	Moored, San Diego Harbor Underway, San Diego area	0000 Moored as before, fore and aft to buoys 45 and 46, San Diego Harbor. Boiler No. 2 and No. 2 A.C. and No. 1 & 3 D.C. generators are on the line for auxiliary purposes. Ship is in Condition of Readiness Five with Material Condition Yoke (modified) set. 0631 Condition Yoke set throughout the ship. 0635 Underway for San Diego OP-AREA. 0659 Commenced transit through Coronado Ferry Lanes. 0731 a/e/stop. FLTRAGRU observers came aboard. 0734 Changed speed to 8 knots. 0805 Standing out of San Diego Bay, commenced using International Rules of the Road. Steering various courses at various speeds to conform to the simulated swept channel. 0816 Exercised the crew at General Quarters. Executive Officer and Navigator are on the Bridge. Navigator has the deck and the Conn. Conducting general drills. 0955 Operating in COMWESEAFRON OPARE SS-1. Conducting various drill including engineering casualty drills. 1030 Visibility decreased to 700 yards. Commenced sounding International Fog signals. Restricted ship's speed to 8 knots and under. Stations fog lookouts.	Deck Log, USS Calvert, February 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	February	1	Underway, San Diego area Anchored, Coronado Roads	1224 a/e/stop. Forecastle reported hearing fog signal dead ahead. Visibility 1500 yards. 1226 a/e/a 1/3. 1233 Secured from sounding fog signals. Visibility 5 knots. 1315 Exercised at the crew at General Quarters. 1317 Captain , Executive Officer, and Navigator are on the bridge. 1332 Condition Zebra set throughout the ship. 1334 Steering at various courses and speeds during the Battle Problem. 1505 Secured from General Quarters. Set Condition Yoke throughout the ship. Set the Special Sea and Anchor Detail. 1513 Steering various courses at various speeds making approach to anchor in anchorage 171, Coronado Roads. 1539 Anchored in Anchorage 171. 1601 Underway to enter San Diego Harbor. 1635 Maneuvering to disembark FLTRAGU observers. 1650 Commenced swinging ship to leave the harbor. 1834 Commenced approach to Anchorage 171. 1925 Anchored in Anchorage 171.	Deck Log, USS Calvert, February 1962. Selected entries
1962	February	2	Anchored, Coronado Roads Underway, San Diego area	0000 Anchored as before. 0315 Lighted fires under No. 1 boiler, preparatory to getting underway. 0440 Set the Special Sea and Anchor Detail. 0518 Underway for local operating areas, speed 5 knots from anchorage. 0520 Commenced sounding proper international fog signals. Visibility 500 yards. 0534 Secured the Special Sea and Anchor Detail. 0822 Exercised the crew at General Quarters. Condition Zebra is set. 0855 Changed speed to 15 knots. 0930 Changed speed to 10 knots. 0935 Posted fog lookouts on Mount 31. 1019 Ceased sounding fog signals, visibility increased to 1 mile. 1025 Damage Control drills completed. 1033 Changed speed to 5 knots. Commenced sounding fog signals. 1035 Secured from General Quarters. 1045 Changed speed to 15 knots. Commenced Engineering Drills making various speeds as desired by Main Engine Control. 1056 Completed engineering drills.	Deck Log, USS Calvert, February 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	February	2	Underway, San Diego area Moored, San Diego Harbor	1200 Commenced maneuvering at various speeds while conducting engineering drills. 1319 R/Full Rudder, a/back full exercising crew at Man Overboard drill. 1324 a/stop, life boat in the water. 1328 "Man" in the boat. 1340 Lifeboat clear of the water. 1345 Set Special Sea and Anchor Detail. 1349 Captain and Navigator on the bridge. 1435 Changed speed to 5 knots. Maneuvering on various courses at various speeds while awaiting tugs to moor to buoys No. 7 and 8, North San Diego Bay. 1516 Anchored in North San Diego Bay. 1620 Let fires die under No. 1 boiler. 2218 Visibility decreased to 450 yards due to heavy fog. Commenced sounding fog signals.	Deck Log, USS Calvert, February 1962. Selected entries
1962	February	3 - 4	Moored, San Diego Harbor	February 3rd: Moored fore and aft to buoys 7 and 8, San Diego Harbor. Visibility 500 yards, sounding Inland fog signals for a ship moored in a freeway. 0652 Visibility increased to 1 mile. Ceased sounding fog signals. February 4th: 0423 Visibility decreased to 1000 yards. Commenced sounding fog signals for Inland waters. 0535 Ceased sounding fog signals.	Deck Log, USS Calvert, February 1962. Selected entries
1962	February	5	Moored, San Diego Harbor Underway, San Diego area Moored, San Diego Harbor	0000 Moored as before. 0800 Making preparations for getting underway. 0817 Underway for local operations. 1050 Exercised the crew at Man Overboard Drill. 1123 Secured from Man Overboard Drill. Anti-mine gunnery exercise 1126 Exercised crew at General Quarters. 1133 Maneuvering on various speeds to keep drums about 200 yards from ship for anti-mine gunnery exercise. 1150 Commenced firing to starboard. 1201 First target sunk. Lowered second target into water. Maneuvering to gain firing position. 1210 Commenced firing to port. 1224 Ceased fire. Secured from General Quarters. 1226 Commenced maneuvering to come alongside second target to destroy it with small arms to port to destroy target. 1245 Ceased firing. Set speed 15 knots to proceed to OPAREA MM-19. 1400 Exercised the crew at fire-at-sea drill. Set Condition of Readiness One. Set Material Condition Zebra. Captain, Navigator, and Executive Officer are on the bridge. Navigator has the deck and the Conn. 1606 Secured from General Quarters. Set condition of readiness Four. Making preparations to enter port. 1758 Moored fore and aft to Mooring Buoys 10 and 11, San Diego. Set Condition of Readiness Five.	Deck Log, USS Calvert, February 1962. Selected entries

1962	February	6	Moored, San Diego Harbor	0000 Moored fore and aft to buoys No. 10 and 11. 0400 Commenced making preparations for getting underway. 0627 Underway, standing out of San Diego Bay. 0811 Exercised the crew at fire drill, all hands to General Quarters. 0823 Condition Zebra set throughout the ship. 0830 Commenced firing Mount 41 to starboard. 0831 Ceased firing.	Deck Log, USS Calvert, February 1962. Selected entries
			Underway, San Diego area	0845 Casualty reported on Forced Draft Blower for No. 1 boiler, time of repair 0920, present speed capability 8 knots ahead; 2/3 astern. 0850 Using various courses and speeds to approach target in water. 1027 Secured from General Quarters and Gun Fire Exercise, speed 15 knots. 1153 Maneuvering at various courses and speeds to take station 16,500 yards from USS Platte to act as observation ship for computation of fall of shot from Platte. 1542 Speed 16 knots. 1553 Entering San Diego Bay. 1631 Steering various courses and at various speeds into San Diego to debark Fleet Training Group observers. 1636 Observers debarked; Steering various courses at various speeds standing out of San Diego Harbor. 2003 Changed speed to 16 knots. Proceeding to take station 5000 yards ahead of USS Montrose. 2036 Changed speed to 8 knots. Commenced radar range and bearing calibration exercise. 2048 Secured from Calibration exercise. Proceeding independently for night steaming in Operation area II9. 2220 Commenced engineering casualty drills. Placed radars in standby during drills. 2335 Secured from engineering casualty drills. Energized radars. 2337 Commenced ECM drills.	Deck Log, USS Calvert, February 1962. Selected entries
1962	February	7	Underway, San Diego area	0000 Steaming independently in COMWESSAEFRON OP AREA II9. Speed 5 knots. 0138 Changed speed to 12 knots, commenced engineering drills, main control regulating speed as desired. 0223 Completed engineering drills. Changed speed to 5 knots. 0435 Conducting engineering casualty drills. Regulating speed as desired. 0535 Engineering drills completed. 0614 Changed speed to 15 knots. 0805 Manned refueling stations to starboard. Changed speed to 12 knots. Commenced approach on USS Ashtabula for refueling exercise. 0909 Secured from refueling exercise. 1129 Exercised the crew at Man Overboard exercise. 1132 LCVP-17 in the water. 1135 Man is in the boat. 1140 LCVP-17 alongside. 1144 LCVP-17 clear of the water.	Deck Log, USS Calvert, February 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	February	7	Underway, San Diego area	1152 Commenced "Rubber docking drill" maneuvering on various course and speeds to approach smoke flare. 1243 Secured from rubber docking drills. Changed speed to 15 knots. 1307 Exercised the crew at General Quarters. The Captain and the Navigator are on the bridge. Set condition Zebra throughout the ship. 1315 Maneuvering at various speeds and courses to stay 4000 yards abeam of tug and sled for gun fire exercises, speed 8 knots. 1412 Secured from gun fire exercises.	Deck Log, USS Calvert, February 1962. Selected entries
			Moored, San Diego Harbor	1415 Exercised the crew at Abandon Ship drill. 1441 Secured from Abandon Ship Drill. Set Condition Yoke throughout the ship. 1451 Secured from General Quarters. 1529 Commenced maneuvering on various courses and speeds to conform with San Diego entrance channel. 1545 Set the Sea and Anchor Detail. 1651 Moored fore and aft to buoys No. 10 and 11, San Diego. 1800 Expended 24 rounds 3"/50 BL&P, 6 rounds 5"/38 BL&P during Z-27-G exercise this date.	
1962	February	8	Moored, San Diego Harbor	0000 Moored as before, fore and aft to Buoys 10 and 11, San Diego. 0758 COMFLETRAGRU observers came aboard to observe battle problem. 0817 Underway. 0852 Exercised the crew at General Quarters. Set condition of Readiness One. 0910 Set speed 10 knots to transit "Swept Channel." Condition Zebra is set. 0937 Commenced transit. Commenced Battle Problem. Maneuvering as appropriate to conform to problem play. Simulating various casualties, attacks, and formation maneuvers.	Deck Log, USS Calvert, February 1962. Selected entries
			Underway, San Diego area Moored, San Diego Harbor	1030 Completed Battle Problem play. Exercised at Atomic Warfare Defense. 1058 End of Battle Problem. Set Condition Yoke. 1100 Commenced approach to anchorage 171, Coronado Roads, on various courses and speeds to simulate precision anchoring. 1142 Simulated anchoring. Exercise completed. 1155 Proceeding in the channel. Commenced using Inland Rules of the Road. Maneuvering to conform to the channel. 1313 Moored fore and aft to Buoys No. 10 and 11. 1342 Secured the main and steering engines. Secured the Special Sea and Anchor Detail. Officer of the Deck shifted his watch to the forward quarterdeck.

1962	February	9	Moored, San Diego Harbor Underway, San Diego area Moored, San Diego Harbor	0000 Moored as before, fore and aft to Buoys 10 and 11, San Diego.	Deck Log, USS Calvert, February 1962. Selected entries
				0700 Set Special Sea and Anchor Detail.	
				0732 Underway. Steaming on various courses at various speeds leaving San Diego Harbor.	
				0823 Secured Special Sea and Anchor Detail.	
				0824 Commenced forming a column with USS Montrose, speed 10 knots.	
				0946 Calvert is maneuvering at various courses and speeds serving as a target ship for a surface tracking exercise for USS Winston (AKA 94).	
				1046 Exercise completed. Calvert commenced course and speeds to be delivery ship for replenishment at sea detail exercise with Winston. Winston commenced making approach to our starboard side.	
				1120 Captain and Navigator are on the bridge.	
				1137 First line over.	
				1147 Commenced light transfer.	
				1202 Completed transfer.	
				1205 Commenced taking in all lines.	
				1209 All lines clear.	
				1230 Winston completed second approach, in station for high line transfer to starboard.	
				1240 Completed transfer.	
				1304 All lines free of ship.	
				1305 Winston clear of ship.	
1653 Moored to Buoys 45 and 46, San Diego.					
1962	February	10 - 11	Moored, San Diego	Moored, fore and aft to Buoys 45 and 46, San Diego.	Deck Log, USS Calvert, February 1962. Selected entries
1962	February	12	Moored, San Diego Harbor Underway, San Diego area Anchored, Coronado Roads	0000 Moored, fore and aft to Buoys 45 and 46, San Diego.	Deck Log, USS Calvert, February 1962. Selected entries
				0900 Exercised crew at General Quarters.	
				0910 Set Condition 1-ALFA.	
				0917 Ungripped all designated boats.	
				0938 Away all boats.	
				1154 Secured from Condition 1-ALFA. Nested boats alongside.	
				1257 Lighted fires under No. 1 boiler.	
				1301 Received LCU-1485 alongside for loading dummy cargo.	
				1440 Remanned all 1-ALFA stations.	
				1445 Commenced loading all boats aboard; Leaving the gig (LCPL-24) mark 4 at Naval Amphibious Base, Coronado with two men as boat watch.	
				1600 Commenced making all preparations for getting underway.	
				1611 LCU-1485 clear of the starboard side.	
				1630 Set Special Sea and Anchor Detail.	
				1730 Underway. Steaming at various course and speeds for Coronado Roads anchorage.	
				1855 Let go port anchor. Anchored on the right flank of Beach Lane Red 2, Coronado Roads.	
				1845 Secured the Special Sea and Anchor Detail. Let fires die under No. 1 boiler.

Operation Flying Disk, June 10th through July 11th					
From 11 June to 10 July the Calvert participated in Operation Flying Disk which consisted of convoy maneuvers enroute to Hawaii, a one-week amphibious landing exercise on the coast of Oahu, Hawaii and finally Anti-Submarine Warfare exercises with units of the Japanese Maritime Self-Defense Forces off the coast of Honshu, Japan.					1) Cullen, Page 28-29
Note: The USS Cavler's Deck Log is not available for the month of June 1962. Entries for June 11 - 30 reflect selected details from the USS Paul Revere which was Amphibious Squadron Five's command ship at this time.					
Amphibious Squadron Five Departes for the Far East					
1962	June	11	San Diego	"It was a gloomy leave-taking for Amphibious Squadron 5's eight ships and 1,500 men under Monday's overcast sky at the Naval Station. The ships sailed for the Far East and duty with the 7th Fleet. They will be gone until December. Several hundred wives, children and sweethearts came early to the dockside for the farewell. Capt. R.B. Erly, squadron commander, led the ships from the Attack Transport Paul Revere (APA248). He will be succeeded as squadron commander this summer by Capt. Paul C. Stimson, now commanding the amphibious command ship Estes (ACG 12) here. Sailing Monday were that attack transports Magoffin (APA199), Calvert (APA32) and Montrose (APA212), the attack cargo ships Seminole (AKA104) and Skagit (AKA105), and the dock landing ships Catamount (LSD17) and Monticello (LSD35)."	San Diego Union, Tuesday, June 12, 1962. p12
1962	June	11	San Diego to Pearl Harbor	1) The morning of June 11th Calvert sailed with other units of Phibron Five for a six-month tour of duty in Westpac. 2) "We left San Diego on 11 June and steamed for Pearl Harbor. Underway we followed maneuvering rules for wartime merchant convoys, conducted naval maneuvers, and held many general quarters, abandon ship, and fire drills. All of these exercises were designed to further prepare us for any duties assigned while a part of the Seventh Fleet in WestPac."	1) Cullen, Page 28-29 2) Calversion, V65, P3 - "Westpac Deployment 1962" letter to families of crew members.

1962	June	19	Underway to Pearl Harbor Pearl Harbor	Steaming as before. Convoy speed 14.5 knots, Formation 50. 1200 Convoy arrival, Pearl Harbor. Commanding officers' conference aboard the USS Paul Revere during the afternoon hours.	1) Deck Log, USS Paul Revere, June 1962. Selected entries

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	June	19 - 26	Pearl Harbor	"Calvert arrived in Pearl Harbor 19 June, off-loaded cargo, reloaded for Operation "Flying Disk", a logistics amphibious exercise, and went to sea the next day. With a near capacity load of Marines, over 750, we plowed the waters off the Hawaiian Islands before landing our wave of Marine loaded boats over the beach. As soon as our boats were recovered, we got underway and returned "all ahead full" to Pearl Harbor for "Liberty Call". Many members of the crew used those next four days to swim at Waikiki, others toured the island of Oahu, and many men visited the Arizona Memorial which stands in honor of the heroic men who died that Day of 7 December 1941. Our softball team was reorganized in Pearl. Unfortunately, at this time their record is 0 wins and 2 losses, but prospects are for much improvement."	Calversion, V65, P3 - "Westpac Deployment 1962" letter to families of crew members.
1962	June	20	Pearl Harbor	<u>Flying Disk LEX Set for Monday, July 20th</u> "A three-phase regimental landing exercise labeled "Flying Disk" will be held at Bellows Airforce Station by 4th Regimental Marines next Thursday, Friday and Saturday. The LEX will consist of two independent daylight beach assaults and one night landing by battalion landing teams from seven ships of Amphibious Landing Squadron Five, home based at San Diego, Calif., under the command of Navy Captain R.B. Erly. ... The loading and embarkation plan calls for each of the BLTs to be loaded prior to noon Wednesday (20th) at Pearl Harbor. On June 21 BLT 1/4 will kickoff the LEX with an amphibious assault at Bellows at 9am. BLT 3/4 will conduct its landing at 8am, Friday (22nd) (CALVERT). ... Exercise planners assure Bellows bathers and vacationers that the exercise will in no way interfere with their vacation. The landing zones will be on two beaches away from the authorized bathing areas. It was also pointed out that no live or blank ammunition would be used during Flying Disk."	Windward Marine, Vol II, No. 24, June 15, 1962, p1
1962	June	20	Pearl Harbor Underway for exercises	Moored, Pearl Harbor. 1800 Ships of PHIBRON FIVE underway out of Pearl Harbor. 1904 Convoy formation 51, speed 10 knots. Formation screened by six destroyers, in a radiometric screen pattern. 1935 Changed speed to 14 knots.	1) Deck Log, USS Paul Revere, June 1962. Selected entries
1962	June	21	Underway in the vicinity of Hawaii	0000 Steaming in formation, as before. 1962	June	22	O'ahu Island, Bellows Air Force Base, beach area	<u>Flying Disk LEX Ending Tomorrow; Tonight's Landing Third of Schedule</u> It's two down and one to go for the 4th Marines today as Operation 'Flying Disk' moves into the second day at Bellos Air Force Station. ... This morning (22nd), BLT 3/4 was scheduled to land on Yellow Beach at 8am, from the APA Calvert and the LST Summit County. The infantry phase of 'Flying Disk' is slated to end tonight (22nd) at midnight, following the 8pm landing of BLT 2/4 from the APA Montrose and the LST Summit County. In all, more than 4,000 infantry and support unit Marines are involved in the exercise which features different landing teams, but the same general battle situation for each of the three BLTs. ... The situation and mission for each of the BLTs calls for the seizure, occupation and defense of radar and communication facilities as well as the Bellows airfield. Other San Diego-based ships, which are on their way for duty with the 7th Fleet in the Far East, include the Attack Transport USS Paul Revere, Attack Cargo ships USS Skagit and USS Seminole and the Dock Landing Ship USS Catamount. The Paul Revere is flagship for Flying Disk. Other Amphibious Force units taking part are detachments of Underwater Demolition Team 11, Naval Beach Group One and Tactical Air Control Squadron 13. Flying Disk is designed to impart valuable lessons in the refinement of nighttime and low visibility landing techniques for the Marine Corps-Navy team. 1962	June	27	Underway to Yokosuka, Japan	Calvert Struck by Torpedo! At approximately 1330 a Japanese submarine fired a salvo of six torpedos in a spread targetting each transport. Following AWS exercise protocol, the convoy made an emergency-style course change the moment the submarine fired her torpedos. However, at that moment the Calvert suffered a steering casualty and was unable to adjust course. Once launched, the single torpedo targeting the Calvert ran true. The Deck Log of the USS Paul Revere records the event as follows: "1331 Torpedo attack was made on USS Calvert; Torpedo passed under amidships." However, the torpedo did not pass under amidships. It hit the Calvert. Two crew members' share their memories of the event:	Deck Log, USS Seminole, June 1962: 1336 Formation turn to 341 degrees true. Deck Log, USS Paul Revere APA-268, June 1962 Deck Log, USS Monticello (LSD-35), June 1962: 1334 Emergency change of formation course to 341 degrees to avoid exercise torpedo.
				The torpedo event as recounted by Ronnie Roy, Coxswain, Boat Group The Navy and Japanese Maritime Self-Defense Forces participated in joint Anti-Submarine Warfare exercises. The Japanese SDF employed destroyers and Lockheed Orion aircraft for defensive exercises, while their submarines exercised at interceptions and torpedo attacks. These exercises gave the Japanese defense force practice in both defensive and offensive submarine exercises. For this exercise the Japanese surface ships were screening the convoy, and then they went into a refueling operation. At that time a Japanese Orion engaged in screening for the submarine who was attempting to intercept the convoy. Ronnie was on watch on the port wing of the bridge lookout. When an aircraft is crusing it makes a uniform tone. The aircraft's tone changed, which caught Ronnie's attention; The Orion was diving towards the surface. It got real close and then pulled-up. It had dropped a smoke pot on the surface, as it would have dropped ordinance. For in this exercise the Orion had scored a "hit" on the submarine and had sunk it. This all happened before the submarine exercised at firing blank torpedos on the convoy, which was a planned and commuincated exercise for all ships in the exerisce. About that time Ronnie had a tap on my shoulder, his my watch relief was there, so Ronnie gave him the biniculoars. Ronnie took his usual "express route" to the main bridge, up to the Fly Deck, over the rail, down the ladder with . As he was walking along the port side of the main deck, six feet from the rail, the watch called-out "Torpedo!" "When I saw the torpedo it was several hundred yards away. I was mesmerized by it. It was coming at the ship at probably a 45 degree angle off the bow towards the ship. When it hit I got knocked off my feet. The torpedo came straight up in the air, the cone had come off, and it flopped back in the water and it was thrashing like a fish on the surface of the water. We went to General Quarters and let the damage control party do their job. What happened was we had a steering casualty, and every ship in the squadron turned away, except for us. We stayed on the original convoy course and that is why we got hit."	Telephone interview, January 30th, 2025, Ronnie Roy Telephone interview, January 30th, 2025, Ronnie Roy

The torpedo event as recounted by Steve Straka, MM2, A Division					
1962	June	27	Underway to Yokosuka, Japan	"As is normal when a convoy leaves Pearl Harbor the submarines conduct war games on the convoys and the surface ships do anti-sub maneuvers. We settled into normal sailing, when over the loud speakers came "General Quarters – General Quarters – This is not a drill – Torpedo Port Side All Hands to Battle Stations." I was in the fresh water evaporator room on the port side. I heard a loud bang and felt the torpedo hit just forward of the evap. room, in the engine room. I had on my sound powered phone and heard the engine room say there was a hole in the port side and we were taking on water. This was getting scary. As luck would have it. the torpedo hit on a heavy steel rib and it was only a small hole in the hull. The damage control party was able to slow the leak and we continued on to Yokosuka Japan where a patch was welded on the hull. If the torpedo had hit one foot either way, it would have been sitting in the steam generators knocking out all the power. Here is how it happened: When we left Pearl Harbor we went into a anti-sub convoy formation. The sub had set up a torpedo plot on the USS Paul Revere (APA-248). When they fired a practice torpedo it was set to go under the target ship, it would then rise and continue to run until it ran out of fuel. It was then recovered. Well the Paul Revere was on our port side. Need I say more! The Captain said that was the fastest the ship ever went to General Quarters."	Steve Straka, MM2, "A" Division, 1962-1965, via email. Captain's Letter - Birthday Party for crew members with June birthdays

Calversion, V65, P6 - Letter to Steve Straka's parents.

U S S CALVERT AFAG-32
30 June 1962

Mr and Mrs Stephen J. Straka
3177 W. 58th Street
Cleveland, Ohio

Dear Mr and Mrs Straka:

Your telegram addressed to the Bureau of Naval Personnel has been forwarded to CALVERT for action, and I am pleased to be able to inform you that it arrived exactly on your son Stephen's birthday. I talked with him that day, and showed him your wire, and he seemed pleased to know that you were thinking of him on his birthday.

CALVERT regularly and routinely arranges to celebrate the birthdays of all men on board with a party, birthday cake and ice cream, etc., suitable for the occasion. The party is not necessarily held on the day of the man's birthday, since this would require probably a daily party, and our schedule of operations precludes this. Instead, as operations permit, and generally about once each week, those men who have had birthdays during the week are brought together to celebrate their birthdays jointly. Such a party has been held today for about 12 men, including Stephen.

Today's party was somewhat more elaborate than usual. It started at 1130 A.M. and included a special lunch at which both Captain RENFRO and myself attended. Dessert was a beautiful birthday cake and ice cream. I have enclosed some pictures of the party in order to give you some idea of what it was like.

As you know, CALVERT is now deployed in the Western Pacific as a Unit of the Ready SEVENTH Fleet and as the Flagship for Command Amphibious Squadron FIVE.

As we travel about the Orient in the course of our regular operations, Stephen will have an opportunity to visit ashore in several countries, and be able to experience for himself how other people and other nations live. This experience will be both interesting and educational for him, and I hope he will find time to write to you often to tell you about it. He is a fine young man of whom you may be justly proud, and we are pleased to have him as a member of CALVERT's crew.

Sincerely,
A. Major
A. MAJOR
Commander, U.S. Navy
Executive Officer

0000 Steaming independently from Pearl Harbor to Yokosuka, Japan. Base speed 14 knots. The Gyro has 1 degree error (westerly). Boilers #1 and #2 generators and #1 and #2 D.C. and @1 A.C. are on the line providing the ship's power. Ship is in condition of readiness IV with Material Condition Yoke set. COMPHIBRON FIVE is embarked aboard this ship.

1962	July	1	Underway to Yokosuka, Japan	0730 Mustered the crew and embarked Marines on station. 0830 Made daily inspection of all magazines and smokeless powder samples. Conditions, Normal. 0928 Commenced steering by hand electric and gyro for test purposes. 1210 Shifted steering to Hydraulic Telemotor. 2300 Surface Search Radar energized. 2307 Contact reported by combat bearing 236 degrees, 1,000 yards, did not hold visual. 2308 Changed course, no visual contact made.	Deck Log Book, USS Calvert, July, 1962. Selected entries.

Fourth of July Swim Call					
1962	July	4	Underway to Yokosuka, Japan	1) The Fourth of July was a great day for Calvert. We enjoyed a "smoker" (a charcoal cookout on hatch 4) complete with talent, boxing and free cigars provided by our Welfare and Recreation Fund. Immediately after the smoker, we held swim call; stopping the ship and putting boats in the water for safety. It was quite an unusual feeling to be swimming 1,000 miles from land. Unfortunately, a school of whales decided to join our party so we ended our swim quite abruptly. The Supply Officer claimed that each man ate an average of four hamburgers and hot dogs. 2) 0000 Steaming as before. Base speed 14 knots. 1504 Making preparations for swim call starboard side. 1553 Engaged Jacking Gear. 1555 Placed two LCVs in water to act as life boats during swim call. 1619 Granted permission to spin main engines every three minutes. Hoisted two LCPs back aboard. All swimmers back on board. 1620 Disengaged Jacking Gear. 1622 Changed speed to 14 knots 2125 Flag shelter reported possible flare off starboard bow, distance unknown. 2236 No further sighting of flare.	1) Calversion, V65, P3 - "Westpac Deployment 1962" letter to families of crew members. 2) Deck Log Book, USS Calvert, July, 1962. Selected entries.

Captain David A Merrill relieved Captain John Renfro as Commanding Officer					
1962	August	4	Underway to Inchon, Korea	The fourth of August saw the Calvert underway enroute to Inchon, Korea and all hands turned out to attend change of command ceremonies as Captain David A. Merrill, USN, relieved Captain John N. Renfro, USN, as Commanding Officer of the Calvert. 1052 Captain J. N. Renfro, USN, was relieved of his duties as Commanding Officer of USS Calvert at ceremonies on board this vessel by Captain David A. Merrill, USN.	1) Calversion, Vol 41, P 6 - Captain David A. Merrill, USN Cullen, Page 29 3) Deck Log Book, USS Calvert, August, 1962. Selected entries.

Commanding Officer
Captain Renfro

Captain John N. RENFRO served as Commanding Officer of the USS CALVERT from April 1961 to August 1962. During his tour of duty on the CALVERT concluded his eighth WestPac cruise, went through an interim overhaul at Seattle, Washington, and participated in amphibious operations off the Washington, California, and Hawaiian coasts.

He was relieved as Commanding Officer while the ship was steaming to Korea to load troops for Operation "Seven Seas."

Captain RENFRO, a 1939 graduate of the Naval Academy, served aboard the USS CALIFORNIA, USS MASSACHUSETTS, USS STANLY (DD 478), and USS SAMUEL N. MOORE (DD 747) prior to assuming his first command in 1945 as C.O. of the USS FRAZIER (DD 607). He has since served as a member of the Naval Mission to Brazil, ordnance-gunnery officer of the USS MISSISSIPPI, liaison officer to Bell Telephone Laboratories, C.O. of the USS DONNER (LSD 20), Atlantic Fleet Communication Officer on the Staff of Admiral Wright, and Engineering Officer of the U.S. Naval Weapon Plant in Washington, D.C.

His present tour of duty is with the Bureau of Weapons in Washington, D.C.

Commanding Officer
Captain Merrill

Captain David A. MERRILL was indoctrinated early into the "Gator" Navy. Five days after relieving as Commanding Officer he guided the CALVERT into anchorages off Pohangdang, Korea, and supervised the debarkation of troops participating in Operation "Seven Seas."

During the remaining four months of the WestPac cruise, he supervised wet net training for R.O.K. Marines, participated in "Operation Lone Eagle" in Okinawa, and assisted in the salvage of the tanker "JULESBERG."

Captain MERRILL attended the University of Washington and the Naval Academy, served aboard the USS DIXIE (AD 14), USS SUPPLY (AVS 1), USS MISPILLION (AO 105), and USS SOUTHERLAND (DDR 743) prior to taking command of the USS HYADES (AP 28) in 1954. He has since commanded the USS STORMES (DD 780) and served in two staff positions; the first as Assistant Operations Officer on the CINCLANTFLT/CINCLANT/CINCPACFLT Staff followed by a tour of duty as Chief of Staff of COMCRUDIV SIX.

Captain and Mrs. MERRILL and their five children reside in Lemon Grove, Calif.

1962	August	4		1112 Lost steering control in pilot house, shifted steering control to after steering. 1120 Shifted steering control to pilot house. 1150 Energized the degaussing unit. 1200 Steering various courses and speeds to enter Inchon Harbor. 1328 Entered swept channel.	
			Underway to Inchon, Korea Anchored off Inchon, Korea	1553 Let go starboard anchor, anchored at Inchon, Korea in anchorage B-2. Breakwater light, 075 degrees; So. Wolmi-do, 65 degrees; Radio Tower, 092 degrees; Sadu-am, 026.5 degrees. 1556 Secured the degaussing unit. 1615 Captain J.N. Renfro, USN, departed the ship for further duty assignment. 1729 Energized the degaussing unit. 1749 Heaved in the starboard anchor to short stay. 1811 Underway. 1959 All engines ahead standard, 15 knots. 2024 Changed speed to 16 knots. 2224 Anchored 3.95 miles south Moktokto Island (West coast of Korea).	Deck Log Book, USS Calvert, August, 1962. Selected entries.

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
Inchon, Typhoons, and Operation Seven Seas					
1962	Early to Mid August		Inchon, South Korea	1) We made a long winding trip through the old minefield areas of Inchon Korea. Before this month was past the Calvert would come to know the channel by heart. At Inchon the Calvert loaded U.S. Seventh Army personnel and Commander Seventh Infantry Brigade, U.S. Army for Operation "Seven Seas". The ship was constantly plagued by threats by typhoons and for awhile it looked as though "Seven Seas" would never materialize. However when an opportunity presented itself the Calvert charged on to Pohang, Korea and completed the exercise.	1) Calversion, V65, P3 - "Westpac Deployment 1962" letter to families of crew members.
				During this time the Calvert was visited by General Melloy, Commander Eighth U.S. Army and Major General Palmer, Chief of Staff, Eighth U.S. Army. 2,3) In Inchon, South Korea the Calvert loaded for Operation Seven Seas. Calvert was flagship for CAPT Paul L Stimson (COMPHIBRON 5) and staff, who commanded the exercise. 4) Exercise Seven Seas, conducted off the southeast coast of Korea. The five-day operation stressed amphibious landing tactics, with members of the Army, Navy and Air Force participating. The exercise employed amphibious forces, minesweeping operations, simulated attacks by submarines, serial support tactics, and shore bombardment by destroyers.	2) Calversion, Vol 41, P 6 - Captain David A. Merrill, USN 3) Calversion V40, P3 - Dan Brotherton - Feb 62 - Nov 63 4) The Daily Reporter (Greenfield, Indiana). September 10, 1962. p1
1962	August	5	Anchored off Inchon, South Korea	0000 Anchored 3.95 miles south of Moktokto Island. Ship is in a 15 minute standby for getting underway. COMPHIBRON FIVE is embarked in this ship.	Deck Log Book, USS Calvert, August, 1962. Selected entries.
			Underway for Inchon, South Korea Anchored, Inchon, South Korea	0405 Section II manned Sea and Anchor detail. Visibility 100 yards due to heavy ground fog. 0439 Underway enroute to Inchon, Korea. Commenced sounding fog signals at 1.5 minute intervals. 0946 Anchored at Inchon, Korea in anchorage B-2. Engineering plant is on a one-half hour standby. 2120 Deputy Brigade Commander, SEVENTH Infantry Division came aboard.

Deck Log Book, USS Calvert, August, 1962. Selected entries.

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
Typhoon Wanda, Hong Kong					
1962	August 30th to September 5th		Hong Kong area	1) "The end of August found the Calvert visiting Hong Kong, British Crown Colony with U.S. military and civilian dependents who had embarked in the Philippines and the threat of Typhoon Wanda hanging over the ship and crew. September roared in with Typhoon Wanda's full fury sweeping through Hong Kong. The Calvert and her crew were duly initiated into the Royal Order of the Typhoon Tigers as the Calvert and crew rode out Wanda's 140 knot winds and rain while moored to Bouy #1 in Hong Kong harbor. With hundreds of people left dead and homeless, the Calvert sent out her crew on errands of mercy to help the people of Shantin Village dig out from the rubble left by Wanda." 2) "We took on a load of Army, Navy and Air Force dependents from the Philippines for a weeks R&R in Hong Kong. We had loaded about 20 pianos in Hong Kong for our passengers when we had to button-up the ship for Typhoon Wanda." 3) "When we arrived in Hong Kong Aug 30, 1962, liberty was immediately cancelled as Typhoon Wanda was about to hit Hong Kong." 4) "1 Sep '62 was spent steaming at four knots with two fiddle-string tight anchor chains secured to the carrier mooring buoy in Hong Kong harbor for 4 hours. This was better than banging the ship up in the South China Sea in the 105 knot winds! Afterwards the Calvert working parties helped in the disaster housing areas near the China border." 5) "We remained moored to typhoon buoys for three days through winds of more than 100 miles per hour. We were the only US ship to remain. After typhoon passed other ships returned and all sent working parties ashore to help several smaller villages struck by tidal waves. I was First Division Officer on Calvert during that typhoon we had to keep an eye on the anchor chains as we kept the ship's engines going to prevent too much strain on the anchor chain." 6) Typhoon Wanda was one of the most intense tropical cyclones on record in Hong Kong.	1) Cullen, Page 29 2) Calversion, Vol 41, P 6 - Captain David A. Merrill, USN 3) Calversion, V50, P4 - Jim Foley, LTJG - June 1961 to May 1963 4) Calversion, Vol 41, P 6 - Captain David A. 1962	August	31	Moored, Hong Kong Harbor	0000 Moored to buoy A-29, Hong Kong, China. 0215 Set typhoon condition III. 1322 Assumed the duties of station ship, Hong Kong, British Crown Colony. 1406 Secured main and steering engines, placed engineering plant on 20 minutes standby. 1610 Posted storm warning #3. 1900 Set typhoon watch in the pilot house, secured liberty. 2255 Hong Kong posted storm warning #7.	Deck Log Book, USS Calvert, August, 1962. Selected entries.

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	September	1	Moored, Hong Kong Harbor	0000 Moored to buoy one, British Crown Colony, Hong Kong, China with 15 fathoms of the port and starboard anchor chain led out through the bullnose. Condition of readiness IV and material condition yoke (modified) are set. Typhoon condition one is in effect. COMPHIBRON FIVE embarked in Calvert. 0415 Set Hong Kong warning #9. 0425 Set the steaming watch section two, modified. 0615 Hong Kong storm warning #10, set. 0705 Observed sunrise turned off aircraft warning and anchor lights. 0747 Commenced using various engine speeds and rudder angles while steaming to Buoy one during the passage of Typhoon Wanda. From 0800 to 1130, winds were from the N.E. at a velocity of 50 to 80 knots with gusts up to 140 knots. Ship listed 10 degrees to starboard under heavy winds. 1130 The eye of Typhoon Wanda passed 5 miles south of Hong Kong, winds decreased to 30 knots. 1155 Winds commenced working around to the S.W. 50 to 70 knots, gusts to 140 knots. Ship is listing 8 degrees to port due to heavy winds. No damage to ship up to this point. 1242 Observed the body of a small child floating face down in water passing rapidly down starboard side. Unable to retrieve body due to high wind and current. 1350 a/e/stop. Secured from steaming at the buoy. 1352 Engaged the jacking gear. Wind velocity decreased to 40 knots. 1432 Royal observatory, Hong Kong hauled down storm warning 10 and closed up warning 6. 1601 Winds decreased to 30 knots. 1915 Storm warning changed from No. 6 to No.3. 1942 Observed sunset, turned on anchor lights. 1943 Set a modified in-port watch. 2001 Let fires die under No. 1 boiler. 2054 Hong Kong secured from typhoon condition. 2050 Winds decreased to 20 knots.	Deck Log Book, USS Calvert, September, 1962. Selected entries.
1962	September	2	Moored, Hong Kong Harbor	0000 Moored to buoy one, British Crown Colony, Hong Kong, China 0917 Lighted off port steering engine. 0924 Set condition Yoke. 0932 All engines ahead 1/3. Underway to shift berth from buoy No. 1 to buoy No. A-29. 0948 Moored to buoy A-29. 0957 Secured main and steering engines. Engineering plant is on a two hour standby for getting underway.	Deck Log Book, USS Calvert, September, 1962. Selected entries.

1962	Early September		Hong Kong area Village of Sha Tin	<u>S.D. Sailors Aid Battered Hong Kong</u>	
				"Sailors from San Diego ships are lending Hong Kong a hand in the wake of typhoon Wanda, which hit the British crown colony with 160-mile-an-hour winds and a six-foot tidal wave Saturday. ... Hundreds of bluejackets have gone ashore on mercy missions from San Diego-based attack transport Calvert (APA32),	
				Under command of Capt. Paul C. Stinson, commander of Amphibious Squadron 5, they are probing the ruins, conducting rescues and clearing up debris. Stinson said the Calvert rode out the storm in the harbor, but two other ships were sunk, three were grounded and countless junks and sampans vanished. A 60-man search and rescue party searched for three hours Monday through the wrecked village of Sha Tin in the New Territories. They recovered the bodies of four children. The village was swept three miles inland and its fate was not known until Monday."	San Diego Union. Page 7, September 5, 1962
1962	Early September		Hong Kong area	<u>Typhoon Struck Hong Kong Gets Amphib Ship Aid</u>	
				"Thousands of Navymen from four Pacific Fleet Amphibious Force ships are assisting in rescue, clearing, and mercy operations last week in Hong Kong, The British Crown Colony was struck by typhoon Wanda on Saturday, Sept. 1, with winds of 140 knots and a six foot tidal wave that tore ships from their moorings and battered the harbor.	
				Three of the ships are homeported in San Diego. They are the attack transports USS Calvert, commanded by Capt. D. A. Merrill, and the USS Montrose, commanded by Capt. J. P. Coleman, and the dock landing ship USS Monticello, commanded by Capt. J. B. Sweeney. The three ships are part of Amphibious Squadron Five which is currently deployed with the U.S. Seventh Fleet in the western Pacific. The fourth ship is the Long Beach based amphibious assault ship USS Valley Forge, commanded by Capt. J. A. Jackson. Capt. Paul C. Stimson, Commander Amphibious Squadron Five aboard the USS Calvert, reported by message to Vice Adm. Howard A. Yeager, Commander Amphibious Force, Pacific Fleet, at his headquarters at the Naval Amphibious Base in Coronado of the conditions in the British Crown Colony. Captain Stimson's message said: "Destruction by typhoon Wanda in Hong Kong terrific. Believed by some residents to be the worst ever caused by a typhoon here. Loss of life and damage to property has been heavy, with number of casualties unknown at this time. Also unknown is number of missing ships, believed to be at least nine. In inner harbor alone two vessels are sunk, three aground and countless junks and sampans vanished."	Coronado Eagle and Journal, Volume 49, Number 37, September 13, 1962

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	Early September		Hong Kong area	<u>Damage Due to Typhoon "WANDA"</u> "Damage and casualties were widespread throughout the Colony. 130 people were killed and 53 were missing. Approximately 72,000 people were registered as being homeless. Of a total of 20,287 small craft in Colony waters, 726 were wrecked, 571 were sunk and 756 damaged. Of a total of 132 ocean-going ships, 24 were beached and 12 involved in collisions. The "Vinkon" and "Haijye" ran aground near the railway line at Tai Po Kau and on Harbour Island respectively. The "Cronulla" capsized near West Point and the "Tung Feng" sank near Green Island. Other ships sunk during typhoon "WANDA" included the "Yeni Meserret" the "Tai Kwong No. 1" and the tugs "Dorothy" and "Kowloon Docks". The typhoon played havoc with field crops, fruits, vegetables and flowers in various districts of the New Territories. About 650 acres of paddy fields in the Tai Po, Sha Tin and Sha Tau Kok areas were inundated with sea water and the annual rice production was reduced by nearly 20% compared with 1961. ... A great number of livestock houses were damaged by the typhoon and livestock losses were severe in some places. Egg production was greatly reduced. Many farm houses were damaged but only a small proportion were beyond repair. Property damage caused by the typhoon was never completely assessed. The urban areas were littered with debris, galvanized iron sheets, bamboo scaffolding, advertisement sign boards, overhead wires and broken windows. More than 700 squatter and roof top huts were destroyed and 1,300 made uninhabitable. Numerous houses collapsed and in Shau Kei Wan many squatter boats were wrecked by logs that had broken adrift from nearby timber yards. In addition over 400 huts in cottage areas were destroyed and 1,200 damaged."	Typhoon Wanda: August 27 to September 2, 1962 Hong Kong Observatory Online: https://www.hko.gov.hk/en/informtc/no10/wanda/wanda.htm
				1) 0000 Moored as before. COMPHIBRON FIVE is embarked on this ship. 1115 Military (153) and civilian (10), dependents (a total of 163 of which 75 were women and 88 men), re-embarked for return trip to Island of Luzon, Republic of the Philippines. 1631 Underway enroute to Sangley Point, Philippines. 1728 Set speed, 16 knots. 2) On September 5th after a week of hard work and little liberty, the Calvert with her tired crew and weary passengers, proudly bid Hong Kong farewell knowing that she had done her part in aiding mankind and promoting good will between two nations. 3) We reloaded our worn-out passengers, a few more pianos, and took them home.	1) Deck Log Book, USS Calvert, September, 1962. Aiji-no-ie Orphanage, aka, Home of Affection, Tokyo

The crew of the Calvert has helped support the Aiji-No-Ie (home of affection) orphanage since 1957. When we are in Yokosuka we like to have them aboard for the day. Ice cream, cake, and cartoons make them have a pretty good time.

Fieldday at the Orphanage!

A little paint and elbow grease will help any thing. Everyone gets a little satisfaction out of helping.

1962	October	18	Underway, Okinawa area	0000 Steaming as before, in formation. Speed 13 knots. The formation is steaming at Darken Ship and EMCON Condition Bravo is in effect. Calvert has the short range surface radar guard and Valley Forge has the air radar guard.	Deck Log Book, USS Calvert, October, 1962. Selected entries.
			Anchored, Chin Wan, Okinawa	0139 Commenced maneuvering at various courses and speeds, independently to assigned anchorage. 0253 Anchored in Anchorage A-7, Chin Wan, Okinawa: Takabarnare Jima: 124 degrees; Kanna Saki 181 degrees. 0315 Set Condition 1A. 0320 Away all boats. Commenced ship-to-shore movement. 1444 Commenced using various engine speeds and rudder angles to form lee to facilitate small boat handling. 1758 Set Darken ship with only Aircraft Warning lights energized. 2000 - 2400 Anchored as before using various speeds and rudder angles to maintain a lee to facilitate small boat handling.	
1962	October	19	Anchored, Chin Wan, Okinawa	0000 Anchored in Chin Wan, Okinawa. The engine and rudder are in use to provide a lee to facilitate handling of small boats.	Deck Log Book, USS Calvert, October, 1962. Selected entries.
				0632 Observed sunrise. 0731 Commenced using various amounts of rudder and engine speeds to make a lee for off-loading small boats and ammunition. 0823 Commenced maneuvering at anchor to form a lee while off-loading ammunition and hoisting boats. 0824 Visibility reduced to 1500 yards during rain squall. 0845 Visibility increased to 3 miles. 0950 All engines stop. Placed engine room n 15 minute standby. 1400 Completed off-loading all embarked Marine personnel and equipment. 1900 Placed anti-sneak attack bill into effect.	
1962	October	20	Anchored, Chin Wan, Okinawa	0000 Anchored as before.	Deck Log Book, USS Calvert, October, 1962. Selected entries.
				0650 Secured anti-sneak attack watch.	
1962	October	21	Anchored, Chin Wan, Okinawa	0000 Anchored as before.	Deck Log Book, USS Calvert, October, 1962. Selected entries.
			Underway, Okinawa	0430 Commenced preparations for getting underway. 0701 Underway to Buckner Bay, Okinawa.	
			Anchored, Buckner Bay, Okinawa	0902 Anchored in Anchorage AV, Buckner Bay, Okinawa: Kanna Saki: 55.7 degrees; Tsugen Jima: 316.5 degrees; Taira Sone: 208 degrees.	

Year	Month	Day	Location / Movement	Historical Details	Sources, Notes
1962	October	23	Anchored, Buckner Bay, Okinawa	1) Shifted to Pier Bravo, White Beach, Buckner Bay, Okinawa. 2) "23 October saw the Cuban crisis flash around the world and the Calvert along with other ships of the Seventh Fleet began making preparations for whatever tasks they might be assigned." 3) "In October Phibron 5 assembled in Buckner Bay with our relieving squadron for a large three-day landing exercise with Okinawan-based Marines. After the critique following the exercise the flag officers were to tell us how we did. Two hours later they came out to let us know that President Kennedy had just told the Russians to get their missiles out of Cuba, and we were to make preparations in case we went to war. We all prepared to reload the Marines to land in China or wherever! A week later tensions relaxed and the rest of Phibron 5 sailed for home."	1) Deck Log Book, USS Calvert, October, 1962. Selected entries. 2) Cullen, Page 30 3) Calversion, Vol 41, P 6 - Captain David A. Merrill, USN
1962	October	22 - 28	Anchored, Buckner Bay, Okinawa	24th: Shifted to anchorage to Anchorage AV, Buckner Bay. Set armed boat patrol, plan A. 25th: Secured from armed boat patrol. 26th: Commander Officer's zone inspection. 27th: Set Typhoon Condition III. Peak wind speed of 23 knots at 0800. 28th: Typhoon Condition III in effect. Peak wind speed of 25 knots at 2000. 29th & 30th: As before.	Deck Log Book, USS Calvert, October, 1962. Selected entries.
1962	October	30	Anchored, Buckner Bay, Okinawa	0000 Anchored as before.	Deck Log Book, USS Calvert, October, 1962. Selected entries.
1962	October	31	Anchored, Buckner Bay, Okinawa Underway, off Okinawa	0000 Anchored as before. 0730 Underway for Local Operating Area.	Deck Log Book, USS Calvert, October, 1962. Selected entries.

S.O.S.

At four in the morning we up anchor and run to the assistance of the MSTs Ship Julesburg. Arriving at about seven we surveyed the bottom and then proceeded to pull her off the reef. After four hours she slid off with no casualties.

Rescue of the S.S. Julesberg

- 2) On 18 November, the day for which the crew had all been waiting (the day the Warhorse would begin her long journey home), the Calvert's crew was abruptly awakened at 0330 in the morning and immediately thereafter she surged out of Buckner Bay to answer the distress call of the SS Julesburg (U.S.S Registry), a 30,000 ton tanker which had gone aground on Rukan Shoal off the western coast of Okinawa. The Calvert was first to arrive at the scene and immediately went to Julesburg's aid. Comphibron Five and Commanding Officer, Calvert, directed salvage operations for Julesburg while Calvert's Mike boats, USS Greenlet (ARS-10) and Army Tug (LT-531) pushed and pulled at the large tanker. Finally, six long hours after Calvert's arrival Julesburg was pulled from her grounding spot and the Calvert, only a few hours behind schedule, steamed off toward Conus with a tired and happy crew.
- 3) The early morning we were cleared to sail for home we received an S.O.S. from the MSTs chartered tanker Julesburg, which had gone aground on a reef west of Okinawa in the middle of the night. Calvert made an emergency sortie at dawn and arrived at the grounding about 0800. We took all our LCMs and tried to swing the Julesburg off the reef, but only managed to rotate it around the pinnacle she was stuck on. Six hours and five burned-out boat engines later a salvage tug arrived, and since the Calvert was not equipped for that type of duty we were happy to turn the task over and head for home.
- 4) William P. Hoffman Aboard USS Calvert.
"... The Calvert was anchored in Buckner Bay, Okinawa, when the SS Julesburg sent a message asking for aid. The stranded ship was on the other side of Okinawa, the largest of the Ryukyu Islands. The Calvert crew worked to keep the ship afloat until a tug and a salvage ship arrived to pull her free of the reef."
